

## Charte d'utilisation des illustrations des standards

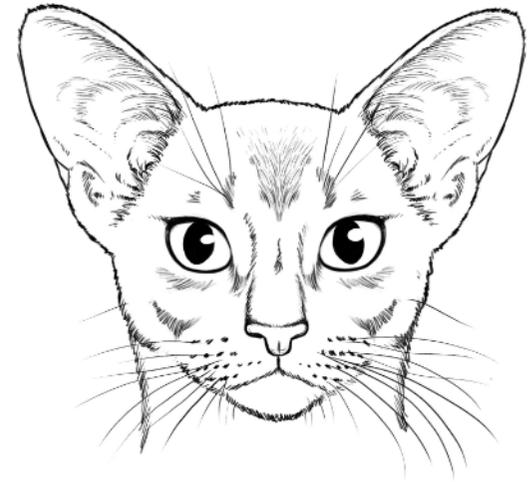

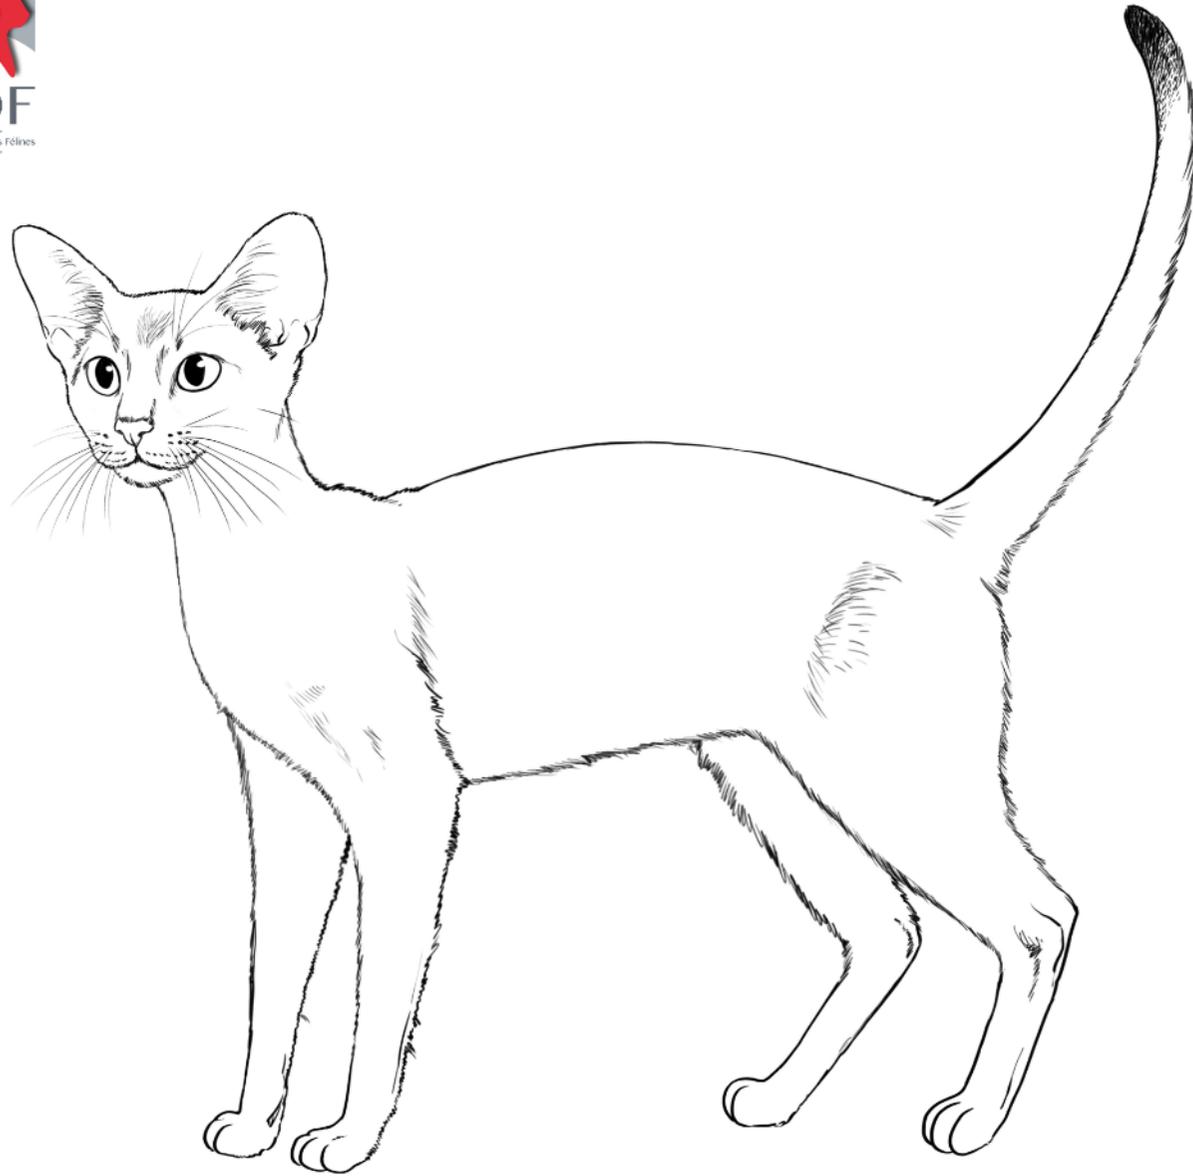

Depuis plusieurs mois, la commission des standards LOOF travaille à la création de « standards illustrés ». Ces illustrations sont des outils d'aide à la sélection basés sur les standards écrits de race LOOF. Elles représentent le chat idéal et les morphologies à éviter.

Leur usage est dédié aux clubs adhérents au LOOF et aux juges LOOF comme support de pédagogie auprès des éleveurs et d'affichage.

Merci de suivre les règles suivantes afin de respecter notamment le droit d'auteur :

- Les clubs adhérents au LOOF et les juges LOOF peuvent exploiter les illustrations sur tout support papier et numérique.
- Les clubs adhérents au LOOF et les juges LOOF peuvent exploiter les illustrations sur tous supports et notamment PLV, kakémonos, affiches, articles de presse.
- Sur toute publication des illustrations doit être mentionné le crédit suivant : « Illustrations : Aurélien Boudault pour le LOOF ».
- Les planches d'illustration peuvent être recadrées pour une meilleure intégration dans les publications. Le crédit devra être mentionné sur chaque image.
- Les clubs adhérents au LOOF et les juges LOOF ne peuvent pas créer de produits de merchandising ou de livre à partir des illustrations.

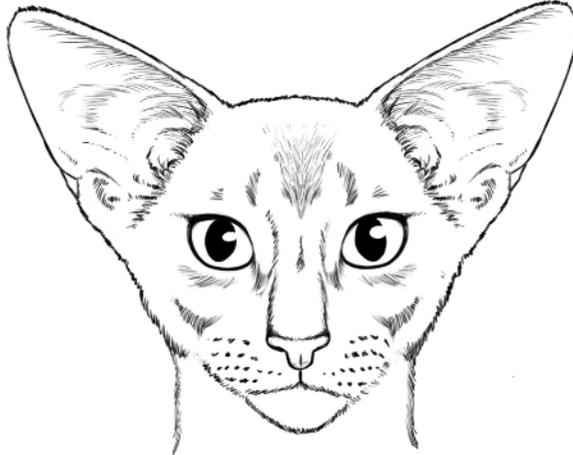

Toute autre utilisation nécessitera l'accord de l'illustrateur et du LOOF.

Standard :
